

ORION AVIATION

About Orion Aviation

Orion Aviation, a premier flying school based in San Diego, California has been in flight training since 1997. Owned and operated by Pat Williams as full service flight training and maintenance facility. More than five hundred and international students have been successfully trained by Orion so far.

Orion Aviation has been training pilots in various skills, from Recreational to Advanced Commercial and Multi-Engine I.F.R. employs professional and experienced CFIs and equipped with all modern avionics along with an excellent environment for ground schooling. It offers all levels of Pilot training. Ultra-Light License, Private Pilot License, Commercial Pilot License, Instructor Rating, Multi-engine Rating and Instrument Rating at unbeatable prices.

Facilities

Orion provides numerous opportunities for the students upon successful completion of the pilot training including placement options, career tracking and guidance to ensure the student is on the "fast track" to a long and successful career as a professional pilot.

Training Methodology

The class room is well equipped with all teaching aids with required CDs and reference books. Students can use the computers for doing mock test and study in the flying school. Periodical test and review will be conducted by the instructors to build up the confidence.

Location

Orion Aviation is located in Sunny San Diego, California near Sea World, Dan Diego Zoo, Disney Land and beautiful beaches. This is the place to enjoy surfing, sailing and fun in the sun. California is the ideal place for flying throughout the year. It is located nearer to Catalina Island, Big Bear, Palm Springs, Las Vegas, and Grand Canyon to fly.

It is committed to maintain a high standard of training excellence as per Federal Aviation Administration part 141

Staff

Orion has qualified and well experienced 6 Certified Flight Instructors. They are backed by experienced management staff to offer you a complete training.

Orion Aviation has well qualified, trained and experienced ground and flight instructors. Orion Aviation maintains the student \ Aircraft \ instructor ratio as 4:2:1.

Ground School

Orion uses the modern teaching aids and provide top quality ground training and utilizes the Computer Based Instruction program. The program pairs the "book knowledge" that you will need to pass the written exams, with the practical aspect of mastering the art of flying the airplane. Your progress is tracked and documented which ensures that your training will continue "on course" throughout.

Aircraft

ORION is equipped with modern avionics. They have aircraft that fit all needs, from basic training aircraft to advanced multi-engine turbo prop equipment far exceeding the CAR standards.

| Present Inventory | Qty |
|----------------------|-------|
| Cessna C152 | 2 nos |
| Cessna C172 SP | 2 nos |
| Cessna C172 RG | 1 no |
| Cessna C172 | 2 nos |
| Archer | 1 no |
| Piper Warrior | 1 no |
| Diamond Katara | 1 no |
| Beech Dutchess BE-76 | 1 no |

Air Field

A well equipped modern Air Control Tower with VFR and IFR facilities, 2 Runways all makes the training a complete one with the experience of flying into an International Airport.

Housing

Orion provides furnished apartments for short term housing for students.

FRUITIVE-ORION Training Programs

ORION offers individual courses and custom designed packaged programs. For the Indian students, packaged programs are offered to save money and time.

As a pilot, you have to comprehend distances and measurements at a moment's notice. Pilots must also be capable of communicating precisely and clearly with passengers, air traffic controllers, flight attendants and other pilots. In the course of work Pilots operate computers and automated instruments continuously.

So to become a Pilot, basic knowledge in Mathematics and Physics, sound English with good communication skills, a very good technical aptitude and of course good health are mandatory.

Accelerated Package Program

The international students especially Indian students, who need to complete training in a faster timeframe will benefit from accelerated training programs. These programs include all of your training, charts, books, examiner fees and even your lodging for the duration of your training.

The Accelerated Training Courses are designed to be completed in 8 months(appx). It is a full time program and the student is expected to put their efforts fully at all times.

Orion trains all students, both foreign and domestic to meet FAA Pilot certificate requirements. However, once a student returns to India, should apply for conversion of foreign license to an Indian license with DGCA. There will be certain exams that have to be passed to do the appropriate conversion. FRUITIVE takes care of the ground school requirements for conversion.

REQUIREMENTS

- ◆ Age : 18 Years.
- ◆ Educational Qualifications: A pass in HSC (Maths / Physics) or equivalent.
- ◆ You must be able to read, write and understand the English language.

Commercial Pilot Training Program (CPTP)

For becoming as a Pilot, one should undergo this program. The Commercial Pilot Certificate permits pilots to fly aircraft for compensation or hire. Commercial pilots are entitled to perform a variety of commercial activities. Additional training and certification is needed for "Air Taxi" and "Air Carrier" operations such as charter and airlines and this training varies according to the flights models.
